

FOR IMMEDIATE RELEASE

## **COURTCANADA TO SUPPLY TECHNOLOGY TO CARSWELL, A DIVISION OF THOMSON REUTERS CANADA LIMITED**

### ***COURTCANADA STRENGTHENS TIES WITH LEGAL INDUSTRY LEADER***

*Cutting-edge technology will assist Carswell in serving the legal community*

**TORONTO, ON** (February 11, 2010) -- Toronto-based software development company CourtCanada Ltd. has announced that it has strengthened the strategic relationship with Thomson Reuters Canada Limited, by entering into a technology licensing agreement.

#### **New agreement strengthens existing ties between the two companies**

The new licensing agreement builds upon an existing strategic relationship between CourtCanada and Carswell. CourtCanada will supply technology to support Cyberbahn's Legal i Link service, which enables legal professionals to submit Court documents over the internet for processing by the industry-leading Carswell litigation support services team.

Through Legal i Link, documents may be electronically submitted for filing with Court offices across Ontario and the rest of Canada, as well as for process serving, Court issuance and other litigation requirements.

#### **Delivering value to the legal community**

Legal i Link offers the following benefits to legal professionals:

- Documents are received instantly, processed accurately and completed on time
- Provides instant access to results such as issued claims and affidavits of service
- "Real time" status emails & secure web access to monitor order status
- Government filing fees disbursed on behalf of user with no additional service charge
- Enhanced document search capabilities
- Original documents delivered to user
- Orders can be submitted from anywhere, at any time
- Eco-friendly, providing enhanced service with a reduced carbon footprint

"Carswell is a leader in the field, and we look forward to working together to deliver new services and incredible value to the Canadian legal community," says Gregory Azeff, CourtCanada President.

The innovative CourtCanada technology products and services have already won praise from the Ontario legal community. The company's other technology products include the Online System for Court Attendance Reservations, or "OSCAR", a web-based scheduling system deployed in Court divisions which include the Commercial List. OSCAR provides public access to Court schedules and information regarding upcoming Court hearings, and allows registered users to search for available Court time and reserve attendances online.

Don Van Meer, President of Carswell states, "We are excited by the opportunity to extend our suite of online legal services by aligning Cyberbahn's Legal i Link and CourtCanada technology to deliver unique solutions to legal professionals across Canada."

#### **About Carswell:**

Carswell, a division of Thomson Reuters Canada Limited ([www.carswell.com](http://www.carswell.com)), is Canada's leading source of intelligent information solutions for legal, tax, finance and human resource professionals. Headquartered in Toronto, Ontario, Carswell provides integrated information in a range of formats, including books, loose-leaf services, journals, newsletters, CD-ROMs and online.

**About CourtCanada:**

CourtCanada Ltd. is a Canadian technology company that combines legal and litigation process expertise with cutting-edge application development skills to create revolutionary web-based software solutions for expediting and facilitating the adjudicative process. CourtCanada's culture is one of innovative research and development supported by essential legal process expertise. The company is firmly committed to contributing towards a more efficient and accessible justice system for all.
